ST•BARTHOLOMEW

CATHOLIC SCHOOL

Welcome to St. Bartholomew Catholic Preschool: Where Discovery Meets Devotion

We are honored that you're considering St. Bartholomew Preschool as your partner in navigating your child's foundational years. Here, we don't just teach; we nurture a "family-first" culture rooted in kindness, inclusivity, and the joy of the Gospel.

At St. Bart's, education is a hands-on adventure. We believe every child is a unique masterpiece of God, and our mission is to help them uncover their specific gifts through curiosity and play. Our dedicated teachers are the heart of our school, providing the guidance and academic excellence your child needs to thrive.

From your very first step through our doors, you aren't just enrolling your child in school—you're joining a community. We invite you to begin this journey with us, from your child's first preschool discoveries all the way to fifth-grade graduation and beyond!

Blessings,
Ginger Vance

WHAT MAKES US UNIQUE

FAITH-BASED

The Catechesis of the Good Shepherd is a Montessori-based religious formation used in Catholic preschools and elementary schools that invites children into a deep, personal relationship with God. Rooted in Scripture and the liturgy, it takes place in a sacred, hands-on learning space called the atrium, where children work at their own pace with carefully designed materials to explore the life of Christ, the Mass, and God's love.

ACADEMICALLY-RICH

Believe and Read is a program focused on phonemic awareness, phonics, and multisensory instruction. Our teachers are certified to teach this evidence-based program that targets pre-reading skills. As students learn these early reading skills and move into the higher grades, we see significantly higher proficiency rates in reading compared to national averages, with many students exceeding reading benchmarks.

STEM CERTIFIED

We are proud to be a Nationally Certified STEM School, a distinction that only 2% of schools nationwide achieve. STEM in preschool fosters an innate curiosity, builds critical thinking, and problem-solving skills through hands-on play. Our program helps to prepare them for what's to come.

At St. Bart's we expand upon traditional STEM curriculum and offer a C-STEAM approach, teaching Science, Technology, Engineering, Art, and Math through a Catholic lens. This methodology allows students to begin to explore faith as they develop skills in collaboration, communication, creativity, and critical thinking.

“St. Bart's Preschool is special not only because of the teachers and staff, but also because kids develop a true community as they begin their school journeys and continue with that same community through elementary school. We really appreciate that preschool and elementary kids within the family can be together – think ONE drop off, ONE pick up, and ONE set of holiday schedules!
